“Quotes from

Getting Ahead While Getting Out Participants

“The most helpful part was making a plan for myself and setting goals.”

“The whole book was very helpful, each chapter or module is something that we face when we leave.”

“When I am released this time I know how to accept and follow rules and the proper places to go for help.”

“The facilitators were amazing. They not only helped us to understand the course studies but they also talked with us as individuals and not as criminals. They allowed us to be ourselves without passing judgments.”
